-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed on 07/01/2003 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. Applicant needs not worry about the US references since the examiner was able to access these references. Applicant is kindly asked to provide a copy of the other references to have them considered. Further, because there are numerous previous applications the examiner respectfully asks that applicant provide a copy of every reference that was considered in any previous application that applicant also wants to have considered for this application.

Specification

2. The disclosure is objected to because of the following informalities: the paragraph added through the amendment is missing some information (patent numbers), please make the appropriate corrections. Application 10/292583 is now patent 6610995 B2, application 09750912 is now patent 6507041 and application 09448479 is now patent 6204512.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 58 is rejected under 35 U.S.C. 102(e) as being anticipated by U.S.

Reissued Patent No. 36,747 (Manabe et al.).

Manabe et al. disclose a GaN based compound semiconductor light-emitting device comprising a semiconductor stacked structure including an n-type GaN layer and a p-type GaN semiconductor layer, a nickel electrode (thus a light transmitting electrode) over the p-type GaN layer, an aluminum electrode (thus a more strongly bonded electrode) on the p-type GaN layer. (See Fig. 4B)
